

Stage Snake Boxes

These stage box provide (XLR) female input channels plus 4 (XLR) male returns. All inputs and returns feature locking connections for a secure fit. Each connector is hand soldered and individually insulated to prevent electrical shorts even after years of use. Features include quick-release connectors, well-protected and flexible cable bundling, and a heavy-duty all metal chassis box. Comes with a built-in easy carrying handle and protective black nylon bag.

Return Type: XLR Male

Cable Gauge: 26 Gauge inner core diameter; 21 Gauge outer core diameter

Construction: 16 Gauge steel box

DB500
53696

Direct Box

The DB500 Direct Box transforms any high-impedance 1/4" source into a low-impedance (XLR) signal ready to be sent long distances to a mixing board or recording console. Its passive design features a high quality transformer, ground lift switch, and does not require batteries or phantom power. Perfect for bass/acoustic guitar, keyboards, and DJ equipment.

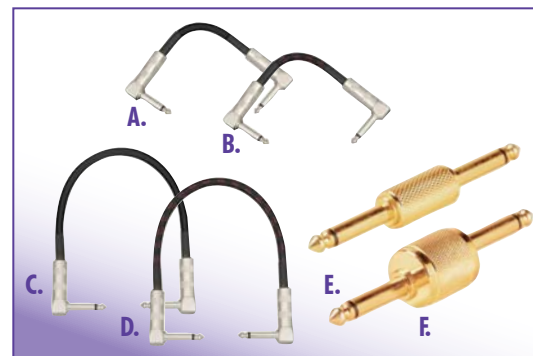

Input Impedance: 350K ohms
Output Impedance: 80 ohms
Dimensions: (w)4.75 x (h)1.375 x (d)2.875"
Weight: .5 lbs.
Power: Passive
Color: Black

Patch Cables

These 8-pack patch cables come in all different vibrant colors, so you won't have any trouble keeping track of what's plugged in where.

A. PC18-17QTR-R QTR-QTR Right-Angle Patch Cables, 17". Multi-color 8-pack.	58760
PC18-17TRS-R Same as PC18-17QTR-R; TRS-TRS ends.	58762
B. PC18-17QTR-S QTR-QTR Straight Patch Cables, 17". Multi-color 8-pack.	58761
PC18-17TRS-S Same as PC18-17QTR-S; TRS-TRS ends.	58763

Pedal Couplers

Plug-and-play is made easy with these Pedal Couplers! Various lengths provide direct connections, eliminating the tangle of cables!

A. PC306B QTR-QTR Right-Angle Pedal Coupler. Black, 6".	58764	E. PC304 QTR-QTR Straight Pedal Coupler. Gold.	34735
B. PC306T Same as PC306B; Tweed cable covering.	58767	F. PC305 QTR-QTR Offset Pedal Coupler. Gold.	34736
C. PC312B QTR-QTR Right-Angle Pedal Coupler. Black, 12".	58765		
D. PC312T Same as PC312B; Tweed cable covering.	58766

Microphone Cables

Professional balanced cables with nickel plated male XLR to female XLR connectors for durability. Available in seven popular lengths, our Lo-Z Microphone Cables are flexible, durable, and have a black jacket. The 25' cable is also available in a Hi-Z model, with XLR-QTR connector ends.

Instrument Cables

Professional cables with 6mm QTR to QTR connectors. Available in six popular lengths, our Instrument Cables are flexible, durable, and have an inner and outer PVC shielding for smooth sound transfer. The 10' cable is also available in a heat-shrink model; and the 20' is also available in a braided version, with 6.5mm connectors.

Speaker Cables

Professional cables with 7mm QTR to QTR connectors. Available in four popular lengths, our Speaker Cables are flexible, durable and features double PVC insulation for long-lasting use. The 10' and 25' cables are also available with Banana-QTR connector ends.

Speakon® Speaker Cables with Neutrik® NL2 Connectors

Twist-lock Speakon® connectors are quickly becoming the standard pro audio connection at all levels. These Hot Wires cables use authentic Neutrik® NL2FC connectors to terminate 14-gauge wires for use with high-power speakers and amplifiers. Hook-and-loop cable-tie included.

Cable Ties

The perfect way to contain your unruly cables! They provide an easy, neat way to secure your guitar, mic and power cords. The fabric strips feature Velcro® style closures to hold your coiled cables in place. Ties can remain on the cables at all times. Packaged and sold 5 per pack.

Perfect Pair Powered Speaker Interconnect Cables

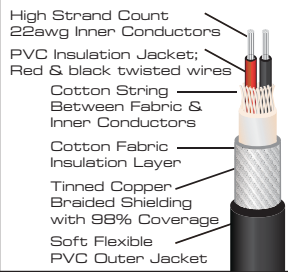

Perfect Pair Combo Cables maximize the convenience of powered speakers. They carry both AC power and double-shielded line level signal. This means that only one power drop is necessary by the mixing position, from which power and signal can be sent with just one cable run. 36" Tails at both ends ensure that there is plenty of length to accommodate any setup. Authentic Neutrik® XLR connectors provide reliability in connections and ease of use. Power connections are made via industry standard IEC plugs, compatible with most popular powered speaker models. A great alternative to running multiple extension cords and microphone cables. 24-Gauge signal lines; 14-gauge AC power cord.

Genuine Neutrik nickel connectors

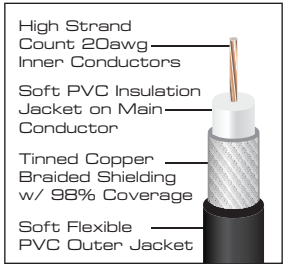

Microphone Cables with Neutrik Connectors

Quality microphone cables are vital to a clean, reliable audio system. Our new Neutrik XLR cables combine the whisper-quiet performance you'd expect in the studio with the road-approved durability you'd expect on a concert tour. The conductors are comprised of heavy 22awg high strand count 99.99% copper wire twisted pair conductors. Tinned copper braided shielding provides a minimum of 98% coverage and remains flexible and intact over years of winding. Shielding rejects RF and EM interference for the lowest possible noise floor, while maintaining signal accuracy even over long runs. Superior Neutrik connectors provide superb strain relief and additional ground contacts ensure safe cable/chassis grounding, essential when using phantom power. Super-Flex technology gives the outer jacket an unmatched combination of durability and flexibility; it lies flat while you're using it and coils easily when you're not.

Instrument Cables with Neutrik Connectors

Get the most out of your instrument! Our new Instrument Cable series uses the finest components to ensure that every last bit of tone gets from your instrument to your amplifier. Genuine Neutrik connectors feature a one piece machined contact and unique chuck-type strain relief for ultra durability. The conductor itself is comprised of heavy 20awg high strand count 99.99% copper wire, protected by a thick, highly flexible PVC jacket. Tinned copper braided shielding provides a minimum of 98% coverage yet remains flexible and intact over years of winding. Super-Flex technology gives the outer jacket an unmatched combination of durability and flexibility; it lies flat while you're using it and coils easily when you're not.
