XCG-4

71025

Classic Guitar Stand

A great value! Our best seller combines a special formula velveteen rubber with extra thick tubing. It features a removable lower stepped yoke, security strap on the upper yoke, and adjustable height. Perfect for any guitar.

Applications: Single Guitar Stand

Padding: Velveteen Rubber

Height Adj.: 19.25-24"

Leg Housing: Heavy-Duty Sheet Metal

Tubing: 17mm/ 22mm

Color: Black Powder Coat Finish

GS7121B-XCG

71030

Deluxe Single Guitar Stand

Made with truly classical style, this mid-priced stand features a rugged die-cast housing, velveteen rubber padding, and an extra thick neck guard. Also features our Smart-Yoke™ design. A special "V" groove prevents upper yoke rotation.

Applications: Single Guitar Stand

Padding: Velveteen Rubber

Height Adj.: 22-27.5"

Leg Housing: Die-cast

Tubing: 19mm/ 22mm

Color: Black Powder Coat Finish

Other Features for XCG-4:

1. New molded end caps keep the security strap from falling off.
2. "V" Groove and non-scratching friction knob locks upper shaft and prevents rotation.
3. Only our Smart-Yoke™ is designed to stay up right, so you will never have to kick it in place again! The key-way locking pin makes the yoke detachable and also allows it to rotate 360 degrees. The Smart-Yoke™ automatically adjusts to most guitar shapes, even asymmetrical instruments, and will always stay right side up when not in use.

CLASSIC GUITAR STAND SERIES

GS7252B-DUO
71070

Double Guitar Stand

This double version of GS7121B safely holds one or two guitars of any type. It features a rugged die-cast housing, velveteen rubber padding and our key-way locking Smart-Yoke™. The three-leg design provides complete stability. All component parts are keyed to align properly.

GS7352B-TRI
71060

Triple Guitar Stand

This triple guitar version adds a locking triple top yoke. It will hold any combination of guitars, basses and even banjos on one safe stand. Its three legged design provides complete stability for one, two or three instruments.

GS7252B-DUO
Applications: Holds Two Guitars
Padding: Velveteen Rubber
Height Adj.: 21.75-30"
Leg Housing: Die-cast
Tubing: 19mm/ 22mm
Color: Black Powder Coat Finish

GS7352B-TRI
Applications: Holds Three Guitars
Padding: Velveteen Rubber
Height Adj.: 23-30.5"
Leg Housing: Die-cast
Tubing: 19mm/ 22mm
Color: Black Powder Coat Finish

GS7221BD
51717

Double Guitar Stand

This affordable Double Guitar Stand combines a stable three-leg design with a set height lower yoke for the best stability of the stand and your guitars. It features a tripod folding base, upper and lower folding yokes, velveteen rubber on all contact surfaces, and non-slip rubber feet. It can hold any combination of electric, acoustic, classical, and bass guitars, even mandolins and banjos.

GS7321BT
51718

Triple Guitar Stand

The triple version of the GS7221BD combines a stable three-leg design with a set height lower yoke for the best stability of the stand and your guitars. Each yoke is strategically aligned above a stand leg for maximum stability. This design allows for the overall height of the stand to be within arms reach at standing height, so there's no longer a need to bend over to grab your guitar!

GS7221BD
Applications: Holds Two Guitars
Padding: Velveteen Rubber
Height Adj.: 19-33"
 (between upper and lower yoke)
Base Spread: 22"
Color: Black Powder Coat Finish

GS7321BT
Applications: Holds Three Guitars
Padding: Velveteen Rubber
Height Adj.: 17-32"
 (between upper and lower yoke)
Base Spread: 22"
Color: Black Powder Coat Finish

GS7652B
71080

Six Guitar Stand

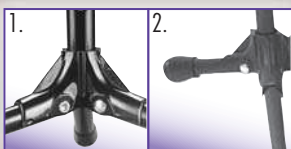

This stand provides a great way to conserve valuable showroom or studio floor space by holding six guitars on just one foldable tripod stand. It also features six folding back bumpers and a height adjustable center shaft. Holds most common guitar designs.

Applications: Holds Six Guitars
Padding: Velveteen Rubber
Leg Housing: Hi-impact Plastic
Tubing: 25mm/ 30mm
Color: Black Powder Coat Finish

Dealers - Save on valuable store room floor space with this safe and affordable stand!

Other Features:

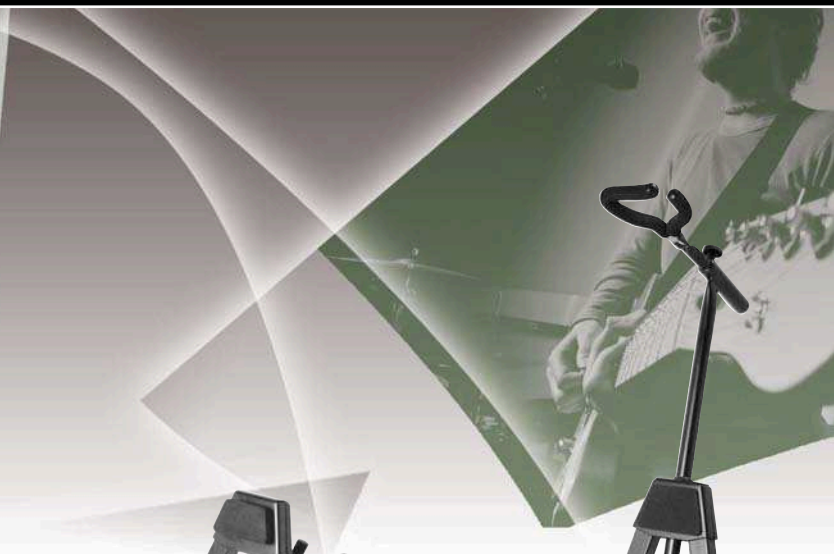

1. Once the legs are pushed in place, the die-cast leg housing keeps them there every time.
2. Short back leg tilts the stand to safely hold a guitar. (Single model stands only).

Other Features:

These models include an auto-locking hinge to keep your guitars safe and secure.

GS7362B
42297

Single A-Frame

A classic, sturdy A-frame that can hold one guitar, either an acoustic or electric. Features heavy-duty 1 x 1/2" tubing, velveteen rubber, and a "uni-construction" design, which means that there are no parts to lose. The tilt back design, splayed footprint, and rubber end caps guarantee stability.

Applications: Single Guitar Stand

Padding: Velveteen Rubber

Tubing: 1 x 1/2" Rectangular - 30mm Round

Color: Black Powder Coat Finish

[PACK] →

GS7462B
34442

Professional A-Frame

Our strongest A-Frame features heavy-duty 1" square tubing, velveteen rubber and a "uni-construction" design, meaning that there are no parts to lose. It holds both acoustic and electric guitars as well as desktop mixers and combo amps. No more need to own multiple stands when our patented stepped yoke design can hold it all! The unique shape also allows this stand to nest together with others when not in use.

Applications: Single Guitar/Mixer/Amp Stand

Padding: Velveteen Rubber

Tubing: 1 x 1" Square and Round

Color: Black Powder Coat Finish

GS7462DB
37440

Pro Double A-Frame

A versatile double version of our heavy-duty A-Frame. It's strong enough to hold a small combo guitar amp with room left for an electric guitar in the back. A must for the gigging musician.

Applications: Holds two guitars, an amp with one guitar, or a combination of most name-brand acoustic, semi-acoustic and electric guitars

Padding: Velveteen Rubber

Tubing: 1 x 1" Square and Round

Color: Black Powder Coat Finish

GS7465B
71049

Pro Flip-It! A-Frame

Possibly the safest guitar stand on the market today, the Flip-It!® A-Frame combines the convenience of an A-frame with the safety of our patented Flip-It!® top yoke. The upper yoke stores between the stand's legs for travel or storage.

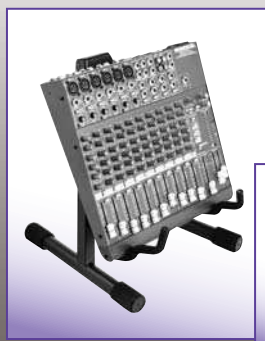

Applications: Single Guitar Stand
Height Adj.: 18.5-26.25"

Padding: Velveteen Rubber

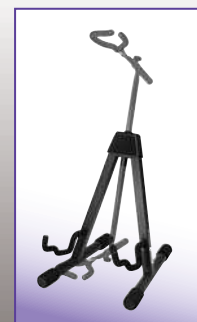

Tubing: 1 x 1" Square and Round

Color: Black Powder Coat Finish

Our extremely versatile A-Frame has capabilities like no other! Not only can it fold flat for travel, as well as nest together with other stands for storage, it can also be used to hold various small amps and mixers.

This versatile stand can also fold flat in seconds for the musician on the go! The upper yoke stores between the stand's legs while the A-Frame folds flat.

Other Features of Pro A-Frame Stands:

1. The patented stepped yoke design on all of our A-Frames holds both acoustic and electric guitars, as well as desktop mixers and combo amps.
2. Folds flat in seconds for easy storage and travel.
3. 10° tilt back angle and splayed foot print make for a stable foundation.

GS8100
71062

Hang-It™ ProGrip Guitar Stand

This patent-pending stand includes padded gates that close when the guitar headstock rests on the upper yokes. The weight of the guitar keeps the gates closed, preventing it from falling even if the stand is vigorously bumped on stage. The GS8100 is height-adjustable to accommodate the size of any guitar, ensuring that the body gently rests against its padded legs. Features include velveteen rubber padding, reinforced tripod leg braces, non-slip rubber end caps, and a cam locking mid-point clutch.

Applications: Single Guitar Stand
Height Adj.: 30-43"
Weight Capacity: 36 lbs.
Padding: Velveteen Rubber
Construction: Steel and reinforced nylon leg housing and clutches
Tubing: 17mm/ 25mm
Color: Black Powder Coat Finish
[PACK] →

**NEW
for
2010**

GS8200
58623

Hang-It™ ProGrip II Guitar Stand

The GS8200 combines the security and convenience of an auto-locking yoke with the ease of the Hang-It™ design. Simply hang your guitar on the patent-pending yoke and the weight of your guitar draws the spring-loaded yoke arms to pull the gates of the yoke shut. All in one single action! Removal is just as easy; picking up your guitar opens the gates instantly. Features include inert rubber padding, reinforced tripod leg braces, non-slip rubber end caps, and a cam locking mid-point clutch.

Applications: Single Guitar Stand
Height Adj.: 30-43"
Weight Capacity: 40 lbs.
Padding: Inert Rubber
Construction: Steel and reinforced nylon leg housing and clutches
Tubing: 17mm/ 25mm
Color: Black Powder Coat Finish

Other Features for GS8100 & GS8200:

- 1 & 2. GS8100 Patent-pending ProGrip system not only locks your guitar in place, but also allows for easy one-handed operation.
- 3 & 4. GS8200 Patent-pending ProGrip system also locks your guitar in place and allows for easy one-handed operation.
5. Cam-locking clutch mechanism combines a high-impact plastic with a low-profile design, making height adjustments safe and easy to use.
6. Height adjustment feature accommodates the size of your guitar so that the body rests against the legs padded back bumpers.

GS7155
40712

Hang-It™ Single Guitar Stand

The single version of our Hang-It!™ Guitar Stands is height adjustable. It is designed to hang most standard guitars and basses by their headstock, while the body rests against the padded legs. The tripod base provides stability, and all three legs fold simultaneously for guitarists on the go. Features velveteen rubber on all contact surfaces.

GS7255
40713

Hang-It™ Double Guitar Stand

The double version of our Hang-It!™ Guitar Stands is height adjustable. It is designed to hang most guitars and basses by their headstock. The tripod base provides stability and folds closed for guitarists on the go.

GS7355
40714

Hang-It™ Triple Guitar Stand

The triple version of our Hang-It!™ Guitar Stands is designed to hang most guitars and basses by their headstock, while a padded back bumper positions the body. The tripod base provides stability when holding either 1, 2 or 3 guitars and folds for guitarists on the go.

Gloss Midnight Blue finish,
Blue Velveteen Rubber

GS7153MC-II
71095

Flip-It® Gran Multi Pak II
15 stands, 3 colors, 5 of each: Black finish, black rubber / Black finish, purple rubber / Midnight blue finish, blue rubber.

The Hennessey Master's Series includes professional quality display pieces. All models in the series feature solid rosewood with a satin finish and come shipped in eye-catching four-color packaging. The series also includes the WMB-100 Wood Microphone Box, which is a beautiful choice to store, protect and display your studio mics.

Other Features for Flip-It® Guitar Stands:

1. The Flip-It!® yoke makes for easy one-handed operation.
2. The Flip-It!® yoke can attribute its ability to flip up or down (depending on model) to its heavy-duty spring locking joint.

flip-it![®]

Quality, function and flair! A unique patented design only available from On-Stage Stands[®]. Our line of Flip-It[®] Stands offers all the features you have come to expect from On-Stage Stands[®]: quality steel tubing, seam welded joints, velveteen rubber, key-way lock and more! We call it the Flip-It[®] because of our patented upper yoke. The flip-top yoke completely surrounds the guitar and cushions it with soft velveteen rubber. One flip up opens the yoke. One flip down secures your guitar. If your guitar is ever accidentally knocked over, the flip-top yoke will break the fall. It could save your neck!

GS7253B-B
71091

Duo Flip-It[®]

A double version of the Flip-It[®], the Duo model holds two guitars of any type. It features a stable three-leg design and a smart-locking top yoke. A must for vintage instrument collectors.

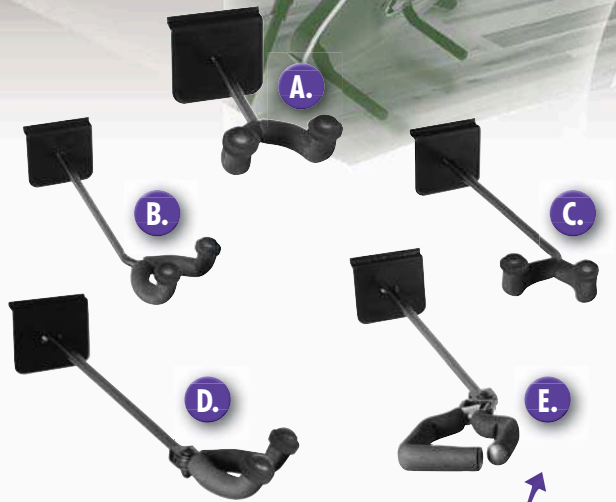

GS7353B-B

GSAC6400

56448

Grip-Clip™ - Guitar Breakaway Cable Clip

The ingenious Grip Clip™ prevents the inadvertent unplugging of guitars, basses, and other strap-worn instruments. It eliminates the possibility of kinking caused by wrapping an instrument cable around a strap button. By clipping high up on the strap behind the player's back, the Grip Clip™ produces a wide gentle loop which reduces stress on both the strap and output jack, while simultaneously reducing and protecting against the likelihood of a stepped-on or snagged cable. The cable attaches to the Grip Clip™ via a snap-in channel to accommodate all popular instrument cables.
