POWER Crank-Up Lighting Stand

By far the easiest method of raising a lighting system 80" off the floor. The easy-to-use POWER Crank-Up is constructed from extruded aluminum and the gear teeth are milled into the shaft, making it the most affordable solution on the market to cranking up a lighting system! Power drill not included. The 48" top T-bar holds up to 4 par cans, while the two 24" side mount bars each hold 2 par cans, for a total of 8 par cans.

Weight Capacity: 80 lbs.
Height Adjustment: 56-138" (11.5')
Base Spread: 48"
Construction: Steel
Color: Black Powder Coat Finish

Dealers - Ask about our promotional Power Drill offer today! It works with both the LS7805B lighting stand and the SS8800B+ speaker stand.

Other Features for LS7805B:

Raise or lower your lighting system using either the removable manual handle or a power drill.
